

**Worldwide :**

- 120-150 million children on the street
- 264 million children without access to education

**Exposed to :**

- Extreme poverty
- Malnutrition
- Violence
- Sexual exploitation
- Human trafficking

The care of **young people in vulnerable situations** requires specific **theoretical, practical and relational skills** from **educators, trainers and social workers**. However, appropriate training is mostly **unavailable**.

➔ The **Digital Notebooks for Social Work** project provides an **innovative solution** for social workers to **enrich their knowledge** and **interact** with their **peers** in their daily work.

What help does this child need?

The **Digital Notebooks on children in street situations** consist of different **modules** that address **key themes** related to the **care** of these children. The **first two Digital Notebooks on children in street situations** will be **available in 2022**, and others are being developed for **2023**.

**An integral approach**

**Community** of practice and knowledge

**Community** awareness-raising

**Training** of social workers and trainers of social workers

**Outreach** with children in street situations

Family **reunification**

**Reception and care**

**Child's life plan** : education, training and decent work

The **Digital Notebooks** also offer an **online space** for child protection actors to **share experiences** and **practices**. It provides a **living link** within the **training**.

Need advice! A new phenomenon of children accused of witchcraft in Cameroon. What can be done?

But in our country...

In the DRC we do this...
